Two learners can share

General Comment

None

Classroom lesson

Class	Learning Objective	Suggested Activity
1 yrs.	No allocation	
2 yrs.	No allocation	
3 yrs.	Life skills – Beginning knowledge, learning about the world around us	When doing a theme related to nature, (such as bugs, insects, spiders) learners can look at these objects under the magnifier. They also might be interested to see how their own body parts look under the magnifier; e.g. their nails, toes or hair.
4 yrs.	Life skills – Beginning knowledge, learning about the world around us	When doing a theme related to nature, (such as bugs, insects, spiders) learners can look at these objects under the magnifier. They also might be interested to see how their own body parts look under the magnifier; e.g. their nails, toes or hair.
5 yrs.	Life skills – Beginning knowledge, learning about the world around us	When doing a theme related to nature, (such as bugs, insects, spiders) learners can look at these objects under the magnifier.
